

Rock WOOL BLANKET

We are able to help you save the energy

Standard Sizes

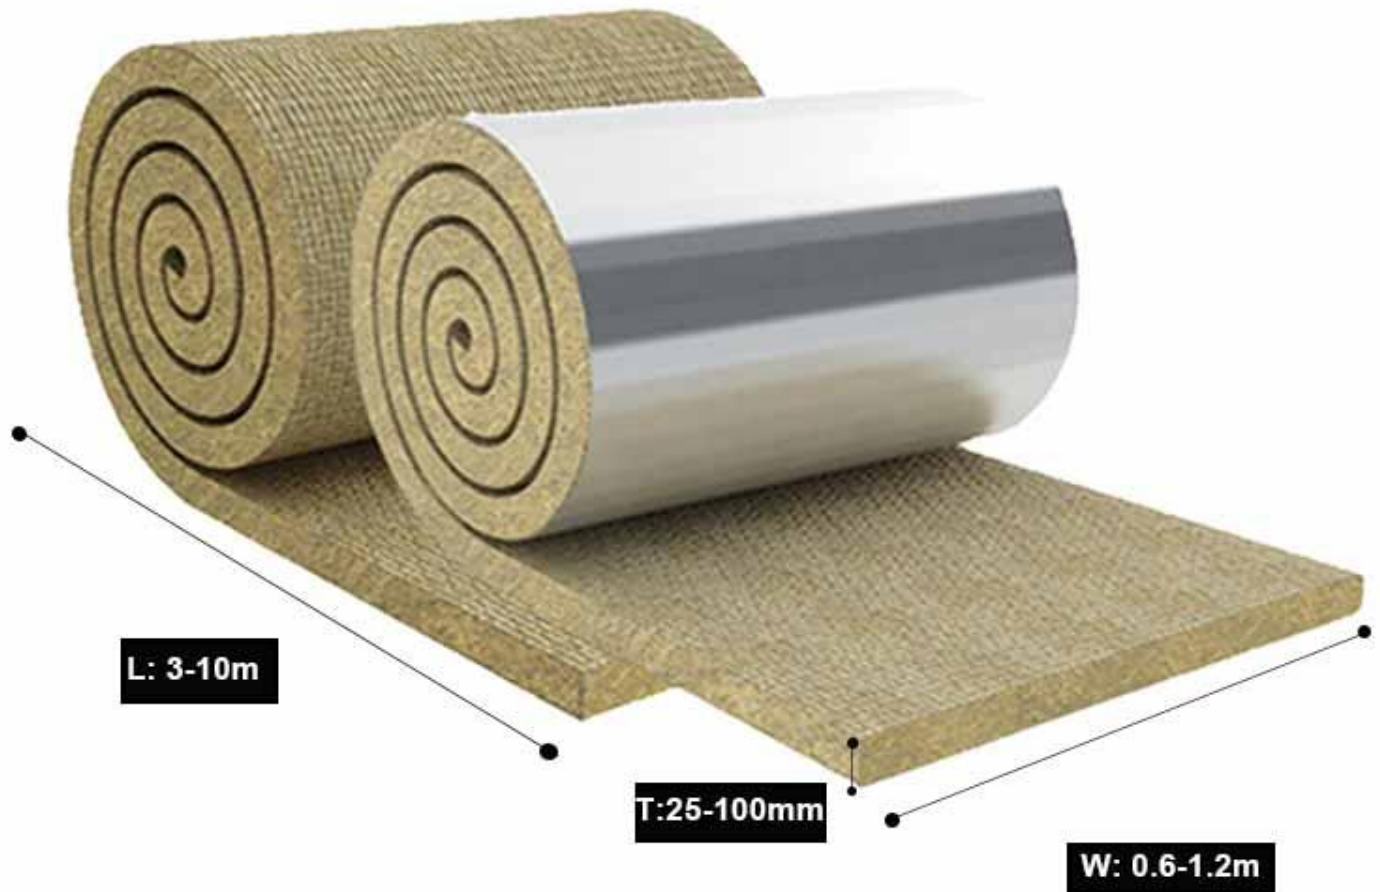

Nominal Density(kg)	80-120kg
Size: L*W(mm)	3m*0.6m, 5m*0.6m, 8*1.2m
Thickness(mm)	25-150

Remarks: Other sizes available upon request.

Technical Parameters

Properties	Value	Unit	Standard
Bulk Density Tolerance	±10	%	AS 1530.4-1997/ISO 834 ASTM E119/JIS A 1304/BS 476:Pt22
Fiber Diameter	5±1	µm	ASTM E84/UL 723
Shot Content	≤5(Coarse shot size≥0.25mm)	%	ASTM E84
	≤30(Ultimate shot size≥0.063mm)		UL 723
Combustion Performance	Non-combustible	-	ENISO1182
	Reation to fire-Class A1		EN13501-1
Thermal Conductivity (Average Temp 20°C)	0.036-0.039	W/mk	ASTM C518 GB/T 19686-2005
Moisture Absorption	≤0.04	% by Vol	ASTM C1104
Water absorption		kg/m2	EN 1609

Melting Point	>1000	°C	-
Service temperature	350-650	°C	ASTM C411

Ecoin Rock wool board Insulation has below features:

- High Compressive Strength and tensile strength
- Good water repellence and air permeability; low moisture absorption
- It doesn't burn, can effectively prevent flame spread in case of fire
- Excellent sound absorption performance
- Good safety and convenient performance

PA
PACKING & LOADING

1. Plastic hot shrink packing

2. Packed in stock

3. Container Loading

1. Packing Details: Heat shrink plastic packing

2. Delivery time: It's depends on your quantity. Normally we can delivery within 4 days.

Tank Insulation

Pipe Insulation

Attici roof Insulation

Big Industrial Pipe Insulation

Ecoin rockwool board can be used as thermal insulation and sound proof material for:

- It's mainly used for heat preservation and personnel protection of equipment such as pipes of big curve and diameter.
- Usually applied in energy saving of equipment of irregular surface, corner and joint part.
- Attic Insulation

Tianjin EcoIn Tech Co.,Ltd

Tianjin EcoIn Tech Co.,Ltd is a company specialized in new tech insulation material manufacturing and export. Our aim is to provide Grade A non combustible Eco-Insulation, friendly to environment and human body, and affordable for clients.

Ecoln factory was set up in 1995, with the register fund of 15 million USD. We are now one of the biggest insulation factory in North of China, with the main products of fiberglass insulation, mineral rockwool insulation and aluminum jacketing system. Low bio-resistance mineral wool is under developing, and hopefully to be exported next year.
